Course Description:

This course will provide a demonstrable knowledge to assist the elderly in maintaining their independence and retaining quality of life. During the study students will understand and demonstrate core fundamentals of activities of daily living. They will have a workable comprehension of infection control procedures and proper body mechanics.

Course Objectives:

After Completing this Course the Student:

1. Describe what Personal Care Attendant can do and where they may work.
2. Describe the continuum of care, service settings, and job opportunities for PCA in various community settings.
3. Define the term "scope of practice" and list three or more factors that determine the scope of practice for direct care workers (DCWs) and In-Home Care Aides.
4. List the Nevada State regulations on mandatory training hours In-Home Care Aide.
5. Describe guidelines for HIPAA, avoiding legal actions and list methods for protecting consumer's rights and dignity.
6. Prepare written documentation following documentation guidelines.
7. Explain how infectious diseases are spread, and common preventive measures; identify components of the Bloodborne Pathogen Standard.
8. Identify and explain basic principles of personal care and demonstrate selected personal skills.
9. Identify and demonstrate good body mechanics related to transferring and walking with an individual. Demonstrate the proper use of selected assistive devices.

Course Requirements:

1. **Students must complete all reading and written assignments as/when instructed.**
2. **Students must wear scrubs and closed-toed shoes with no heel.**

Grading Policy:

If Student does not earn at least a 75% on the final course exam, they will be required to study, and re-take the exam, prior to receiving their Certificate of Completion.
